

PolyBedComplete

Simplify equipment purchasing for your sleep lab

PolyBedComplete offers a comprehensive solution for sleep labs, combining state-of-the-art hardware, software, and accessories in one easy-to-order package. Whether you're setting up a new lab or upgrading existing equipment, our tailored options ensure you get exactly what you need.

Did you know?

Sleep labs often juggle multiple vendors and dozens of individual components when setting up or upgrading their facilities.

This complexity can lead to compatibility issues and extended setup times.

PolyBedComplete

Your solution to sleep lab complexity

- Easier ordering process
- Faster setup
- More cost-effective solution

What you get

Customizable all-in-one solution

Full suite of hardware and software components

Flexible camera options

Key components included

1. Core Hardware (e.g., PC, Monitor)
2. Software and Licenses
3. Sensors and Electrodes
4. Cables and Accessories
5. Chosen Amplifier Components
6. IP Camera (optional)

Important notes: 1. Promotional pricing for PolyBedComplete packages only. 2. Customization options available (may affect pricing). 3. Some accessories sold separately. 4. Extra training available for purchase for customers with multiple sites or 10+ users.

Different Thinking for Better Healthcare.

How it works?

Step 1

Choose camera option and user type.

Option	IP Camera/IR	User Type
1	No	New
2	No	Existing
3	IP Camera	New
4	IP Camera	Existing

Step 2

Choose amplifier.
