

## **Nihon Kohden Introduces First-Ever ATO-Certified Ventilators**

Irvine, California – November 1, 2024 – Nihon Kohden, a global leader in medical technology, today announced the introduction of the industry's first ventilators to receive Authority to Operate (ATO) certification under the Department of Defense's (DoD) Risk Management Framework (RMF) eMASS #3389. This rigorous cybersecurity certification ensures Nihon Kohden's ventilators meet the highest standards for data protection and operational security in healthcare settings.

"Our ATO-certified ventilators represent a new standard in medical device security," said Roy Sakai, President of Nihon Kohden America. "This certification shows our commitment to protecting patient data and supporting healthcare providers in today's digital world."

### **Benefits of ATO-certified ventilators**

- Stronger patient data protection
- Faster setup and installation
- Lower risk of cyber attacks

Nihon Kohden's commitment to maintaining this certification ensures its ventilators remain at the forefront of cybersecurity protection.
